Search

- To request prescription history on a patient, on the main menu go to: **RxSearch / Patient Request**.
- Required fields are indicated by a Red Asterisks *.
- At a minimum, First Name, Last Name, and Date of Birth, as well as Prescription Fill Dates are required.
- Including additional information, such as ZIP code, can improve your search.
- Prescription Fill Dates default to a one year search range from the current date, but can be changed.

— ** —

- When a match is found, the Patient Report is automatically displayed as shown here.
 - **Getting Results** – Depending on your role, requests may require review and approval by the state PMP Administrator. If this is the case, a message will appear with further instructions.
- Other messages you may encounter during search:
- **No Matching Patient Identified** – This message indicates that no patient was found matching the criteria entered.
 - Possible Solutions: Check the patient information entered to ensure accuracy or enter additional information, like a ZIP code to enhance the search.
 - **No Prescriptions within the listed date range** – This message indicates the patient was found, but had no prescriptions within the fill dates selected.
 - Possible Solution: Change the Prescription Fill Date Range to a different time frame.

The screenshot shows the 'Patient Rx Request' form in the PMP AWARE - Demo application. A pop-up window titled 'Multiple Patients Found' is displayed in the center. The pop-up contains the following text and options:

Multiple Patients Found [Why do I see this?](#)

We identified multiple patients who match the criteria you provided. You have the following options:

- Refine your search by providing additional search information.
- Select any patient group to run a report.
- If you believe more than one group identifies your patient, select them to run a report.

Below the text, there are two patient selection options:

Patient 237

Name	DOB	Gender	Address
BOB TESTPATIENT	1900-01-01	female	1023 NOT REAL ST, WITCHITA, KS 67203

Patient 238

Name	DOB	Gender	Address
BOB TESTPATIENT	1900-01-01	female	1023 NOT REAL ST, WITCHITA, KS 67203

Make a Suggestion

At the bottom of the pop-up are two buttons: 'Refine Search Criteria' and 'Run Report'.

The background form shows fields for 'First Name*' (Bob), 'Last Name*' (Testpatient), 'DOB*' (01/01/1900), and 'Phone Number'. There are also date range fields for 'From*' (11/17/2014) and 'To*' (11/17/2015). A checkbox at the bottom indicates 'I agree to the terms of the acknowledgement'.

Other Messages you may encounter during search:

- **Multiple Patients Found** – This message indicates that more than one patient matched the search criteria provided.
- A special pop-up window displays each patient and instructions about how to proceed.
- Select one or more patients, then click Run Report to continue to the Patient Rx Report or change your search information by clicking the Refine Search Criteria button.

[View](#)

- You can view the results of any previously run Patient Rx Request by going to: **RxSearch / Requests History**
- Patient Rx Reports viewed from Requests History are saved reports showing the same information as the day they were prepared. They do not automatically refresh when viewed.
- Select a patient's row to display their corresponding information card at the bottom of the screen.
- To view the saved Patient Rx History Report, click the View button.
